

NEW YORK WIRE

POLLEN GUARD SCREEN

Protect your Home from Pollen

Stronger ideas for a sustainable world

Reduce your exposure to airborne allergens with New York Wire Pollen Guard.

Pollen Guard Screen is specially designed to block up to 50% more particles than standard fiberglass insect screen. Pollen Guard Screen is a unique polyester knit fabric that creates a barrier for most pollen, dust, and other allergen particles making it ideal for allergy sufferers. The particles become trapped by the special knit design keeping your air inside clean.

Pollen Guard Screen allows air to flow in while keeping dust and pollen particles out. No need to keep the windows closed during allergy season, now you can keep your windows open and enjoy the breeze!

Features and benefits of Pollen Guard Screen include:

- Specially designed to block up to 50% more particles than standard fiberglass insect screen
- Unique knit design traps particles while still allowing clean air to flow through
- Easy to install

Pollen Guard Screen is available in DIY pre-cut and 100' contractor rolls. Each pre-cut roll comes with simple step-by-step instructions for easy installation. New York Wire .140" spline is recommended for the best fit in a standard frame.

Pollen Guard Screen FAQ's

How much allergen protection does this screen offer over other screens?

Pollen Guard Screen blocks up to 50% more particles than standard fiberglass screen.

Is airflow blocked as well as pollen and dust particles?

No. This unique knit design allows air to flow through while blocking pollen, dust and other particles.

What fabric is this material made from?

Pollen Guard is manufactured using polyester yarn.

How do I clean Pollen Guard?

To clean, apply gentle pressure using a mild detergent with a soft bristle brush or sponge. Thoroughly rinse with a gentle spray of clean water. **DO NOT USE** a high pressure washer!
