

Corner Tapes

A complete line of distinctive tapes designed for inside and outside corners.

- Flexible, Metal and Composite tapes
- Easy to apply
- Use on inside and outside corners
- Cut to length, reduces waste

CORNER TAPES

The FibaTape® full line of corner tapes – Flexible, Metal and Composite – eliminates the need to finish drywall corners with expensive, easily damaged metal corner bead. No fasteners are required, so they're easy to apply, work for both inside and outside corners, and can be cut to any length. So if you're looking for a simple solution that provides clean, smooth corners every time, FibaTape's Corner Tape products are the perfect choice for both professionals and DIYers.

A product for every user and every application

Flexible Corner Tapes

Perfect for DIYers

- Unique high-impact polymer formulation
- For inside and outside corners
- Can be easily cut and notched for curves and unusual angles
- Provides clean, smooth corners
- Ultra-thin profile makes feathering and finishing simple and easy

Metal Corner Tapes

Contractor grade

- Steel reinforcing strips for tough, clean corners
- Can be used for inside and outside corners
- Shipping carton easily converts into shelf display

Composite Corner Tapes

Excellent results for contractors and DIYers

- Perfect for inside and outside corners and off-angles
- Contractor-quality corners – straight and durable
- Straightens common framing irregularities
- Resists dents, chipping and cracking
- No fasteners required
