

Download the Enclosure Enhancer app on Google Play or the Apple App Store

Customers are asking for custom screening solutions!

Mix and match New York Wire specialty screening to create the ultimate enclosure. New York Wire understands the needs of the market based on numerous focus groups we've conducted. Homeowners have a preference towards using specialty screening to suit their specific functional needs. Use Pet Resistant screen along the bottom to keep tears at bay, or solar along the top to protect furniture from fading. There are numerous ways to combine our specialty screening to deliver the ultimate solution to the customer.

Need help promoting your services? Newyorkwire.com is loaded with Marketing tools to help you do just that. Order customizable jumbo size postcards or build your website using customizable templates we've developed. Download our **Enclosure Enhancer** app on the Google Play or the Apple App Store or visit newyorkwire.com to access the web version. **Enclosure Enhancer** allows you to virtually view the world through a selection of speciality screens through the Screen Visualizer or Customize Your Enclosure which allows you to mix and match screen for a virtual custom enclosure suited to your functional needs.

The Universal Solution

The complete solution for your enclosure

Stronger ideas for a sustainable world

Enjoy the outdoors with our premium Pool and Patio Screen, or customize your enclosure with a combination of specialty screen to achieve the ultimate solution for your pool or patio.

Sizes up to 108" wide.

Pool & Patio

Long lasting and durable

New York Wire Pool & Patio Screen is a heavier screening fabric specifically designed for use in large areas such as pool enclosures, screened-in patios and porches. Pool & Patio Screen has a protective UV stable coating to ensure long lasting color and flexibility. The screen will not stretch or shrink and will maintain its physical properties even under extreme temperatures.

Features and Benefits

- Stronger than standard fiberglass mesh
- Ideal for large openings and areas that need added strength
- Fiberglass screen will not rot, rust or corrode, even in salt air
- New York Wire screen is leading the industry by offering a complete line of ortho-phthalate free screen

100' Rolls

Widths: 36", 48", 60", 72", 84", 96", 102" & 108"
Color: Charcoal

Pool and Patio Screen FAQ's

What other materials are needed to install Pool and Patio Screen into my enclosure system?

You will need a spline tool and flat spline.

What diameters is flat spline available in?

Pool enclosure channels are standard within this system, but are unique to typical window channels. Flat spline is offered in one standard size to fit in almost any pool enclosure.

Will these same tools work for my porch enclosure?

You will still need a spline tool and spline, however, depending on the spline channel itself, you may require a round spline with a different diameter. We recommend .140" for normal channels, but .125", .160", .175", .190", and .220" are also made available by New York Wire.

Can I use specialty screen in my enclosure?

Absolutely. The use of specialty screens will provide you with a customized enclosure that meets all your needs.

What is new and improved about this product?

NYW Screen is now ortho-phthalate free and does not contain any substances covered under California Prop 65. We have maintained the same great aesthetics, properties and processibility that our screen has always had. We have also now achieved GREENGUARD Gold certification on this product, which certifies that the product has low chemical emissions.

Customize your enclosure

Glass Screen

Keep grass and debris out

New York Wire Glass Screen is a fiberglass screen that is laminated for use on the bottom part of an enclosure. It is normally used from the chair rail to pool and patio deck.

Features and Benefits

- Laminated to keep out grass clippings and bugs
- Provides increased privacy

100' Rolls Widths: 36", 72" • Color: Charcoal

Pet Resistant

Resists damage from household pets

Designed to resist damage from animal claws, Pet Resistant Screen is much heavier than traditional screening. Pet Resistant Screen is a smart solution for those who repeatedly have to replace screens. Our Pet Resistant Screen is the only one on the market that includes a coating to make it flame resistant by passing the ASTM requirements D3656 and D6413. Visit www.newyorkwire.com to see the flame tests completed using ISO11925-2 testing standards.

Features and Benefits

- Heavy duty screen prevents tears and damage
- Ideal for areas where pets or children push against the screening
- Durable, yet still allows for excellent outward visibility and airflow

100' Rolls Widths: 36", 48" • Color: Charcoal

Sun Guard

Control the damaging effects from the sun

New York Wire Sun Guard Solar Screen can help to control the damaging effects of the sun. While filtering light and heat from the exterior, the unique weave used in New York Wire Sun Guard is also specifically designed for better visibility and without distortion from the interior. Sun Guard is available in 2 different styles – Sun Guard 85 and Sun Guard 90. Each style is tested for sun control using the ASTM 4028 standard.

Features and Benefits

- Extremely tight fiberglass weave for greater protection from sun and insects
- Light filtering for greater heat reduction and less glare
- Long-lasting, attractive exterior appearance while providing increased interior privacy

100' Rolls Widths: 36", 48", 60", 72", 84", 96", 108" • Color: Charcoal

Small Insect

Enjoy the outdoors without the bugs

New York Wire Small Insect Screen is ideal for protection against no-see-ums, gnats, sand flies and other tiny irritating insects. As a premium screen product, Small Insect screen is tested using ASTM 3656 standards.

Features and Benefits

- Thicker yarn and tighter weave provides greater insect protection than standard screen
- Ideal for low marshy, coastal and wooded areas

100' Rolls Widths: 36", 48", 60", 72", 96", 108" • Color: Charcoal
